

LPG CONTROL PANEL

High-quality Vietnamese product

Futures

- . Number of connectable detectors: 4, 8, 12, 16, 20, ...
- . Connects to two, three, or four independent solenoid valves.
- . Support for various detector types on a single control panel.
- . Connectivity for temperature probes and pressure sensors.
- . Fire alarm signal output and input capability.
- . BMS system integration via RS485, BACnet IP, etc.
- . Compact design suitable for all installation spaces.

Technical specifications

Model	NV-4ExD	NV-8ExD
Detection Point	4 Channel	8 Channel
Power supply	220V/60Hz	
Detector type	Explosion-proof gas detector type Output 4-20mA	
Solenoid valve	Type NC/NO 12VDC; 24VDC; 220V	
	Connects to two, three, or four independent solenoid valves*	
Alarm light	24VDC	
Visual & Audible alarm	Yellow LED blinking, Buzzer Sound (above 50dB)	
Measuring Range	0-99 %LEL	
Alarm point	20 %LEL	
Output / Input Fire Alarm	Dry A	
Output*	BMS, BACnet IP, RS 485,	
Power spare*	Ni-Cd DC24V 600mAh Battery changer built-in	
Dimensions (mm)	H350 x W300 x D130	H450 x W400 x D130

* Option please confirm when you order.
